

BRANDENBURG EASY COUNT UNIVERSAL GLUE BOARD

Superior HACCP and HARPC compliant control board designed specifically for UV insect light traps. With integrated 'Easy Count' designed to meet food safety standards around the world, for improved speed & efficiency of fly counting and species identification.

Specifically designed for improved performance in UV insect light traps

The Brandenburg Easy Count Universal Glue Board is a monitor and control board for flying insects, which is fully compliant with the HACCP framework and international food safety standards.

White marked grid for easy sample fly count and visual identification of species

UV stabilised glue retains adhesiveness despite prolonged UVA exposure

Pheromone integrated glue formulation for improved attraction*

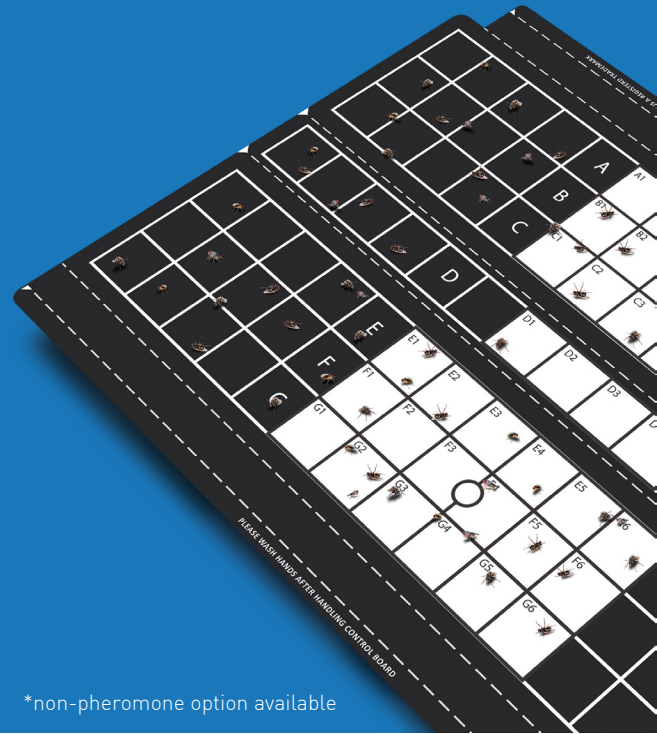

Coated to restrict moisture absorption

Clean-peel release paper ensures that glue does not peel off on the release paper for easy disposal

Ergonomically positioned adhesive-free area for ease of handling

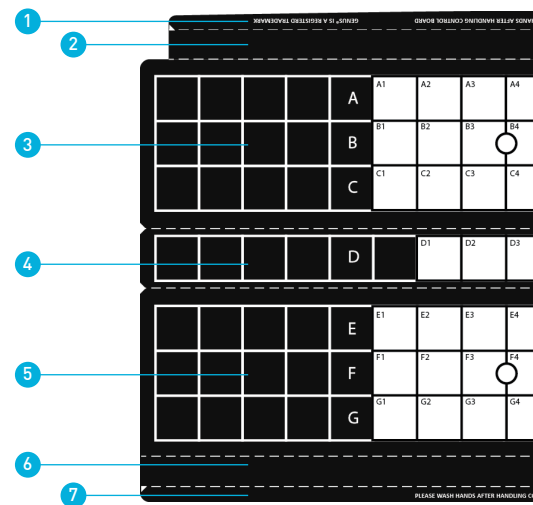

*non-pheromone option available

One glue board, many fly traps

Perforated, removable sections make it easy to trim down the glue board size to fit in a variety of fly traps. As a result, the Brandenburg Universal Easy Count Glue Board is compatible with almost all Brandenburg units and several non-Brandenburg insect light traps.

Compatibility Chart

	PestWest			Vector®	
	Mantis / Chameleon 1x2	Mantis / Chameleon 2x2	Mantis / Chameleon 1x3	Plasma	Plasma One
Glue Board Sections to Use	2, 3, 4 & 5	2, 3, 4 & 5	2, 3, 4 & 5	3 & 5	3 or 5
	Gardner	Gilbert			
	WS - 85	Sticky Fox	Sticky Bear	Sticky Tiger	Flying Venus
Glue Board Sections to Use	2 & 3 or 5 & 6	3 & 5	3 & 5	3 & 5	3 or 5

Easy to trim down perforated sections.
