

TERMIFILM®

TERMITE & capillary rise* prevention film before construction

For all your jobsites, TERMIFILM has 3 functions in a single layer:

- ➔ *Anti-termite action, tested on site for over 20 years without any loss of effectiveness*
- ➔ *Capillary rise prevention action* for use compliant with DTUs, the EN 1367 (2012) standard and trade practise*
- ➔ *Protection of underground insulation*

TERMIFILM performances**:

- *Nail tear resistance: 40 N (transverse and longitudinal direction)*
- *Extension: 75% (transverse and longitudinal direction)*
- *Static puncture resistance: 5 kg*

Technical support:

Implementation manuals, design consultancy, layouts on site installation support.

Information for your orders:

Reference	TERMIFILM		
Packaging	30 m ²	75 m ²	150 m ²
GENCOD	3360730007883	3360730007944	3360730005766

* In accordance with the requirements of standard EN 13967: 2012 concerning "Flexible waterproofing sheets - Plastic and elastomeric sheets to prevent capillary rise through the soil".
 ** See Declaration of performance n° DOP-SCC-2015-002 (Lab2014_021).
